BAIRD BROTHERS

craftsman + shaker

CREATE YOUR HOME IN THE SIMPLE,
BEAUTIFUL, DISTINCTLY AMERICAN STYLE
FRANK LLOYD WRIGHT INSPIRED.

IT'S UNCOMPLICATED. IT'S GORGEOUS. And its popularity continues to grow. But most of all, it's home. It's the Craftsman style that became America's own, following the fancy and intricate Victorian era.

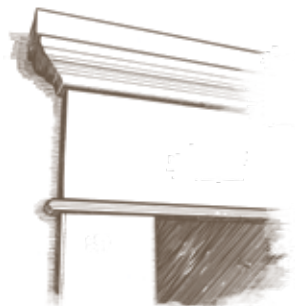

Craftsman is a melting pot of ideas and inspiration. Arts and Crafts by nature, Craftsman incorporates a little Mission ... a bit of Shaker ... and a lot of beauty. Flat panels, square sticking, straight lines, square balusters, straight or tapered interior columns. All basic, all elegant and all architecturally perfect to showcase the painted or stained hardwood you select for your own version of **AMAZING.**

WHEN YOU COMBINE “NOW” AND “TRENDY” WITH POST-WORLD WAR II MINIMALISM AND SIMPLICITY, THE OVERALL FEEL IS STUNNING, FUNCTIONAL COMFORT.

FORGO THE CLUTTER, THE FOCUS IS ON ELEGANT FUNCTION. “Less is more” in elegant Contemporary/Modern design.

Open floor plans, clean lines and smooth surfaces blend stunningly in today’s Contemporary/Modern homes.

Incorporating a natural element, such as beautiful, subtly grained hardwood, adds a touch of warmth to Modern decor, especially when paired with industrial-inspired materials. The combination is the aesthetic **YIN AND YANG** in a Contemporary/Modern-style home.

DESIGN STANDS THE TEST OF TIME
— AND NOTHING'S MORE SYNONOMOUS
WITH TRUE AMERICAN STYLE.

BACK WHEN AMERICA WAS YOUNG, before the Industrial Revolution took hold, craftsmen used the vast, virgin Appalachian forests to mix European traditions with the practical considerations of settlers in the New World.

Always in style, Colonials remain a symbol of classic beauty and tradition, a favorite of homeowners and builders alike.

Beautiful hardwood plays a starring role in Colonial homes with formal mouldings and casings, distinctive wide baseboards and paneled hardwood doors. And, the center staircase crafted from gorgeous American hardwood. More impressive than that famous **MIDNIGHT RIDE**.

FOREVER CLASSIC, BUT CONSTANTLY
EVOLVING, TRADITIONAL DESIGN
FEELS LIKE HOME.

COMFORTABLE, FUNCTIONAL AND FAMILIAR, Traditional is the most popular style in America. A melting pot of styles, today's Traditional keeps a fresh face by injecting modern comforts and taking a more pared-down approach.

Gorgeous hardwood is right at home in Traditional design, with an abundance of crown moulding, chair rails and wainscoting. The hallmark of Traditional style, decorative mouldings add a beautiful **WOW FACTOR** to otherwise ordinary surfaces.

victorian

LAVISH, LUXURIOUS AND ORNATE.
VICTORIAN DESIGN USES ALL THE TRIMMINGS
TO CREATE A WARM, COMFORTABLE HOME.

During Queen Victoria's reign (1837-1901), Brits — and their cousins across the pond — designed their homes with newly available machine-turned materials.

Mouldings with elaborate combinations of shapes and profiles, parquet flooring in geometric patterns, stairways with ornamental spindles — with **ALL THE TRIMMINGS** and more, Victorian design is anything but understated.

Today, as in yesteryear, beautiful hardwood, often in rich maple, cherry and walnut, gives the feel of **ABUNDANCE AND WARMTH** which is the hallmark of Victorian design.
